Children of community building namesake and community activist, Ella Mae Hillman

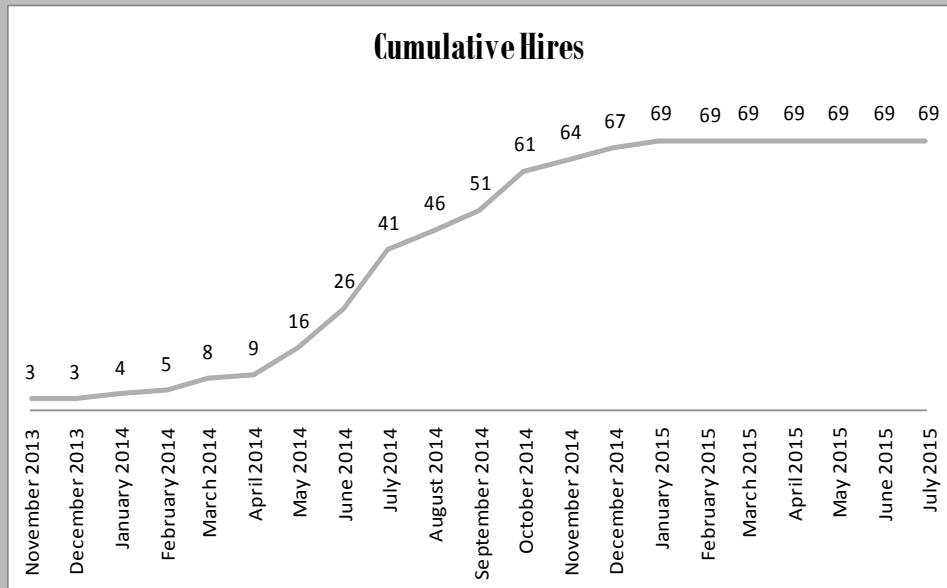

THANK YOU

Phase I of the Addison Terrace redevelopment project was the largest award to a minority enterprise in Pittsburgh's history- \$160 million. With that, KBK Enterprises awarded over \$27 million on contracts to minority and women owned firms and hired 69 local workers in construction jobs.

KBK did not achieve these accomplishments alone, however. KBK would like to thank the Addison Terrace MWBE Advisory Committee members, the Housing Authority of the City of Pittsburgh, Allies & Ross Management and Development Corporation, the Department of Housing and Urban Development, City of Pittsburgh, and our funders PNC Bank and the Pennsylvania Housing Finance Agency. And of course, to the community members, Addison residents, neighbors, community champions, and Hill District advocates, thank you for your commitment to affordable housing in the Hill District. KBK Enterprise is so honored by the Hill District's willingness to support the efforts of KBK and it's partners in the redevelopment of Addison Terrace.

Together, we built the largest Enterprise Green Community in SW Pennsylvania and 186 families call it home. Now on to Phases II & III!

Skyline Terrace Section 3 Update

The chart above reflects changes in the reporting protocols: hires counted are only those confirmed Section 3 by both KBK and HACP. The Federal Section 3 program ensures that low and very-low income individuals within the City of Pittsburgh have the opportunity to benefit from training and employment opportunities available due to the redevelopment of Addison Terrace. The KBK Foundation is committed to ensuring the fair and successful implementation of the program.

SAVE THE DATE!

Phases II & III MWBE Kick-Off
